Gentlemen:

The Clara Barton Camp for Diabetic Girls in North Oxford, Massachusetts was created as a living memorial to Clara Barton. Our Malden Association of Universalist Women has enthusiastically supported the work done in this camp and through our association with the camp we learned of the many contributions she made to this nation.

Clara Barton was the first woman clerk in the Patent Office in Washington, D. C.

Clara Barton's career as a Civil War nurse and internationally active humanitarian began when she was 40 years old. Her title "Angel of the Battlefield" was well deserved and remained with her throughout her life. After the war she began a long search for missing prisoners of war. She also worked to alleviate famine and need in European and Asian nations. She was the founder of the American Red Cross, and founder of the First Aid Department of the American National Red Cross.

In this Bicentennial and International Decade of Women, it is particularly fitting that Clara Barton's Contributions to this nation be recognized. We therefore endorse her election to the Hall of Fame for Great Americans.

Very truly yours,
